

ROPES & KNOTS

Lesson 5 The Bowline

In this lesson we are going to learn our final but also a most important knot. With this one we may even be able to rescue someone's life one day! The **Bowline Knot** makes a loop of any size on your line that stays just the way you need it to.

These photos show rescue knots being used to save lives. The bowline gets it done!!

All of the knots you have learned, though, can help make things <u>safe</u> and <u>secure</u>. Be sure to use the right knot for the job. Learn them well! Before ending your meeting recite your two memory verses:

Matthew 18:18 & Proverbs 6:20-21
